

ADA COMPLIANCE ENGINE · APRIL 2027 DOJ MANDATE · TITLE II ADA

Meet Your ADA Deadline Without the Manual Backlog

Fixing thousands of PDFs by hand takes months and a team many organizations don't have. The Automated ADA Compliance Engine converts legacy PDFs into WCAG 2.1 AA-conformant HTML, fully automated in your own GCP project, with human review built in so you can stay in control of what gets published.

10K+

DOCUMENTS BATCH
PROCESSED PER WEEK

WHAT YOU GET

Same document. Accessible to all.

Automated remediation

Converts 83%+ of documents without the need for manual intervention.

Scale and efficiency

Batch process 10,000+ documents a week with 90% lower cost than manual processing.

Zero vendor lock-in

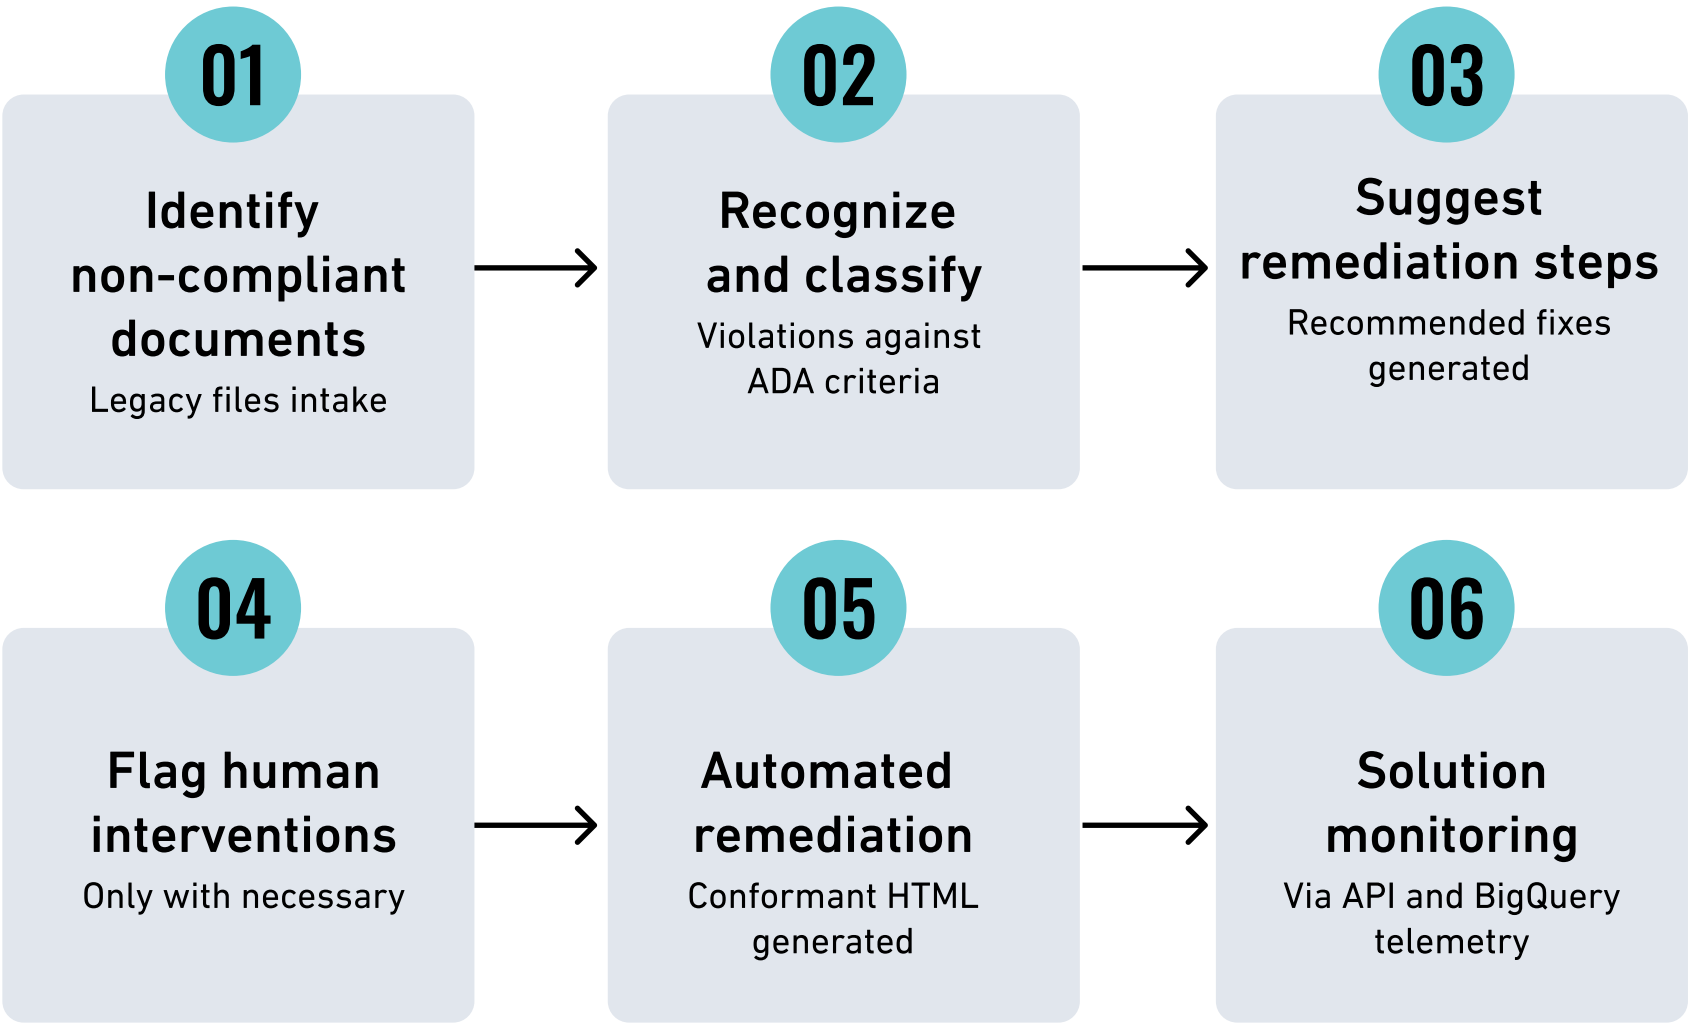

You own the code, the infrastructure, and every output.

Violation tagging

Every compliance issue is identified and tagged directly in the source document.

HOW IT WORKS

Unified, intelligent automation

Ready to see a demo?

Let's schedule some time to show how our solution works with some of your current documents.
